

ENVIRONMENTAL POLICY AND MANAGEMENT SYSTEM

Axiom Project Services recognises the importance of environmental protection and will ensure compliance with all environmental legislation, regulations and appropriate codes of practice relating to the processes and activities of the company.

It is the company's policy to carry out all reasonably practicable measures to minimise the environmental impact of our staff and operations and we achieve this through our commitment to:

- Reducing the amount of waste produced by evaluating operations and ensuring they are as efficient as possible.
- Actively promote recycling both internally and amongst its customers and suppliers.
- The use of recyclable and renewable materials where possible.
- Reducing the consumption of raw materials, water and fuels.
- Minimising travel emissions by increasing the use of meetings using online technology platforms.
- Minimise toxic emissions through minimising the use of cars and encouraging staff to utilise public transport.
- Where relevant, source and promote product ranges to minimise the environmental impact of both production and distribution.
- Meet or exceed all the environmental legislation that relates to the Company.

The company will foster environmental awareness and understanding in all employees, suppliers and customers.

Where practicable, the company will provide information and assistance to its customers on environmental issues arising from its services.

Improvement will be continuous, and the company will annually review progress against its goals and objectives.
